BURIAL AND CREMATION

It is traditional to state in your Will your desires about burial and cremation. Please note; however, that since your Will may not be read until after your funeral, you should make sure that your loved one know your desires while you are still living to make sure your wishes are followed. Also, if you have an Advance Directive for Health Care, your agent under the Advance Directive for Health Care has authority to decide what happens to your remains.

EXECUTOR

Your *Executor* is the person who will carry out the instructions in your Will. Any individual who is over the age of 18 may serve as an Executor of an estate. Your spouse may serve as Executor, but that is not required. An Executor does not have to live in the same state as you, but it will be much easier for a local Executor to administer your estate than for an Executor who lives someplace else. Many banks will serve as Executor, but they charge a fee for doing so. Your Executor need not be a lawyer or a financial expert, but your Executor has very broad powers with regard to your property, and therefore should be someone who is *intelligent* enough to ask for help from professionals when needed (accountants, lawyers, investment advisors, etc.), is *honest* and completely trustworthy, and is *responsible* enough to "get things done" and see them through to completion.

Who should be your Executor? (Please list in order of preference)

REPORTS AND BOND

The law provides that your Executor must file *periodic reports* to the probate court showing the assets in your estate, income to the estate, distributions, etc., so that the court can supervise the Executor's activities, *unless* you direct that reports are not necessary. Likewise, the law also requires that an Executor post a *bond* (a type of insurance policy) with the probate court to protect the estate from theft or mismanagement by the Executor, *unless* you direct that a bond is not necessary. Reports and bonds provide extra protection against a dishonest or careless Executor, but they also substantially increase the work of the Executor and the cost of administering the estate. In most cases, where the Executor is a trusted relative or friend, the Executor is not required to file reports and posting bonds.

Do you want to require Reports and Bonds?

- No**, reports and bonds are not necessary. I am comfortable with the Executor acting without any supervision from the court, and am willing to accept the risk that the estate may suffer a loss that could have been prevented by court supervision and/or a bond.
- Yes**, reports and bonds should be required; I want my Executor to be closely supervised.

GEORGIA ADVANCE DIRECTIVE FOR HEALTH CARE QUESTIONNAIRE

THIS IS NOT A HEALTHCARE DIRECTIVE!
ALL INFORMATION PROVIDED ON THIS FORM IS PRIVILEGE & CONFIDENTIAL.

Our office will use the information on this form to prepare the documents you have requested, and will call you to discuss any questions we may have, as well as any questions you may have.

Full Name: _____ Date of Birth: _____
(Print Name) First Middle Last

This State of Georgia Advance Directive For Healthcare has four parts:

PART ONE – Health Care Agent. This part allows you to choose someone to make health care decisions for you when you cannot (or do not want to) make health care decisions for yourself. The person you choose is called a health care agent. You may also have your health care agent make decisions for you after your death with respect to an autopsy, organ donation, body donation, and final disposition of your body. You should talk to your health care agent about this important role.

PART TWO – Treatment Preferences. This part allows you to state your treatment preferences if you have a terminal condition or if you are in a state of permanent unconsciousness. PART TWO will become effective only if you are unable to communicate your treatment preferences. Reasonable and appropriate efforts will be made to communicate with you about your treatment preferences before PART Two becomes effective. You should talk to your family and others close to you about your treatment preferences.

PART THREE – Guardianship. This part allows you to nominate a person to be your guardian should one ever be needed.

PART FOUR – Effectiveness and Signatures. This part requires your signature and the signatures of two witnesses. You must complete PART FOUR if you have filled out any other part of this form.

You may fill out any or all of the first three parts listed above. You must fill out the PART FOUR of this form in order for this form to be effective.

You should give a copy of this completed form to people to might need it, such as your health care agent, your family, and your physician. Keep a copy of this completed form at home in a place where it can easily be found if it is needed. Review this completed form periodically to make sure it still reflects your preferences. If your preferences change, complete a new advance directive for health care.

Using this form of advance directive for health care is completely optional. Other forms of advance directives for health care may be used in Georgia.

You may revoke this completed form at any time. This completed form will replace any advance directive for health care, durable power of attorney for health care, health care proxy, or living will that you have completed before completing this form.

In addition to the other powers granted in this Georgia Advance Directive for Health Care, I grant to my health care agent the power and authority to serve as my personal representative for all purposes of the federal or state law related to privacy medical records, including the Health Insurance Portability and Accountability Act of 1996 and its regulations (“HIPPA”), during any time my health care agent is exercising authority under this document. Pursuant to HIPAA, I specifically authorize my health care agent as my HIPPA personal representative to request, receive and review any information, medical and hospital records; to execute on my behalf any documents necessary or desirable to implement the health care decisions that my health care agent is authorized to make under this document. By signing this document, I specifically authorize my physician, hospital or health care provider to release any and all medical records to my health care agent or my health care agent’s designee. Further, I waive any liability to any physician, hospital or any health care provider who releases any and all of my medical records to my health care agent.

My health care agent may accompany me in an ambulance or air ambulance if in the opinion of the ambulance personnel protocol permits a passenger and my health care agent may visit or consult with me in person while I am in a hospital, skilled nursing facility, hospice, or other health care facility or service if its protocol permits visitation.

My health care agent may present a copy of this advance directive for health care in lieu of the original and the copy will have the same meaning and effect as the original.

I understand that under Georgia Law:

- My health care agent may refuse to act as my health care agent;
- A court can take away the powers of my health care agent if it finds that my health care agent is not acting properly; and
- My health care agent does not have the power to make health care decisions for me regarding psychosurgery, sterilization, or treatment or involuntary hospitalization for mental or emotional illness, mental retardation, or addictive disease.

4. Guidance for Health Care Agent

When making health care decisions for me, my health care agent should think about what action would be consistent with past conversations we have had, my treatment preferences as expressed in PART TWO (if I have filled out PART TWO), my religious and other beliefs and values, and how I have handled medical and other important issues in the past. If what I would decide is still unclear, then my health care agent should make decisions for me that my health care agent believes are in my best interest, considering the benefits, burdens, and risks of my current circumstances and treatment options.

5. Powers of Health Care Agent after Death

(A) AUTOPSY

My health care agent will have the power to authorize an autopsy of my body unless I have limited my health care agent’s power by initialing below.

(Initials)

PART TWO – Treatment Preferences

PART TWO will be effective only if you are unable to communicate your treatment preferences after reasonable and appropriate efforts have been made to communicate with you about your treatment preferences. PART TWO will be effective even if PART ONE is not completed. If you have not selected a health care agent in PART ONE, or if your health care agent is not available, then PART TWO will provide your physician and other health providers with your treatment preferences. If you have selected a health care agent in PART ONE, then your health care agent will have the authority to make all health care decisions for you regarding matters covered by PART TWO. Your health care agent will be guided by your treatment preferences and other factors described in Section (4) of PART ONE.

6. Conditions

PART TWO will be effective if I am in any of the following conditions:

Initial each condition in which you want PART TWO to be effective.

_____ **A terminal condition, which means I have an incurable or irreversible condition that will result in my death in a relatively short period of time.**
(Initials)

_____ **A state of permanent unconsciousness, which means I am in an incurable or irreversible condition in which I am not aware of myself or my environment and I show no behavioral response to my environment.**
(Initials)

7. Treatment Preferences

(Initials) **If my heart or pulse has stopped, I want to have cardiopulmonary resuscitation (CPR) used.**

8. Additional Statements

This section is optional. **PART TWO** will be effective even if this section is left blank. This section allows you to state additional treatment preferences, to provide additional guidance to your health care agent (if you have selected a health care agent in **PART ONE**), or to provide information about your personal and religious values about your medical treatment. For example, you may want to state your treatment preferences regarding medications to fight infection, surgery, amputation, blood transfusion, or kidney dialysis. Understanding that you cannot foresee everything that could happen to you after you can no longer communicate your treatment preferences, you may want to provide guidance to your health care agent (if you have selected a health care agent in **PART ONE**) about following your treatment preferences. You may want to state your specific preferences regarding pain relief.

9. In Case of Pregnancy

PART TWO will be effective if this section is left blank.
